Dear Taxpayer Employee,

I would like to make you aware of my strong feelings on the Microsoft case. I think it is a case that should be resolved quickly and fairly. I noticed that the stock market decline began about the time of the case, and I know Microsoft is a very important part of the US economy, especially in the area of future growth. I know that Microsoft has helped, not hurt, consumers, and has provided great stimulus to our national economy. As a taxpayer, citizen, and voter, I would like to see this matter resolved so that we can get our economy rolling again, which would help all Americans.

Thanks for considering this. [I have no affiliation with Microsoft].
